

YOUR VALIDATOR IS COLLECTING MORE —THAN MONEY—

Clean your JCM Bill Validators with
JCM Waffletechnology.

Every time a bill goes into your validator, it's also introducing dust, oil and debris. Instead of opening every machine on your casino floor, just insert a JCM Waffletechnology Cleaning Card. The rounded corners and waffled ridges are a perfect fit for JCM validators, which makes it a perfectly unobtrusive means to get a guaranteed clean. And that will guarantee your players more time on their favorite machines.
